LIBERATA

LUXURY TAN

The experts in luxury tanning bring you the  
world's most advanced spray tan.

Odour Remove™ for Zero Smell

Moisture Locking Technology for 72 Hour Hydration

Certified Organic Botanicals

Perfect Fade

## PRE-SPRAY TAN ADVICE

Shower and exfoliate on the day of your tan and avoid using products that contain essential oils.

★

Hair removal (waxing/shaving) should be done no closer than 24 hours prior to tanning session.

★

Don't wear makeup, deodorant or any skin products to the appointment and avoid moisturising for 24 hours prior to your tan.

★

Wear or bring loose, dark clothing and flip-flops (avoid string vest tops and anything that clings to the skin).

## POST-SPRAY TAN ADVICE

Following the spray tan, avoid wearing a bra. Keep skin covered to prevent transfer onto fabrics when sitting.

★

Don't put hands in water or get the skin wet - this will affect the development of the tan.

★

Don't touch the skin with your hands as the bronzer will transfer to palms.

★

Don't wax/shave for 24 hours following treatment as this removes layers of skin and will remove the tan too.

★

Moisturise twice daily following the spray tan. Only use a product that don't contain essential oils as these oils create a faster fade.

We recommend Vita Liberata **Moisture Boost Body Treatment** as it is designed specifically to enhance your tan.
